ARCHIWARE

Archiware showcases LTFS Data Exchange at NAB Show 2018

Archiware, producer of data management software Archiware P5 and Pure, introduces its latest product developments at the NAB Show in Las Vegas from April 9th to April 12th. Highlights include live demonstrations of the upcoming version 5.6 of the P5 software suite in conjunction with numerous partner products at Archiware's booth SL15416.

Munich/Las Vegas, March 20, 2018 – NAB Show Las Vegas is the most prominent international event for the media and entertainment technology industry. This year, Archiware is showcasing the latest version of the P5 data management suite, to be released in the second quarter of 2018. Features include:

- LTFS data exchange
- LTO-8 support for P5 Archive and P5 Backup
- Microsoft Azure, Hitachi S3 and Wasabi S3 support
- Support for Backblaze Fireball service to import large datasets
- Extended NAS compatibility: QNAP and Synology

A significant addition to Archiware's upcoming P5 version is the native integration of data exchange in LTFS format. The new feature eliminates the common drawbacks of LTFS, with no additional driver requirements. LTFS data exchange will be demonstrated in a live environment along with Archiware's partner products:

- mLogic mTape and mBridge
- Spectra Logic stackable tape library
- Promise Pegasus3
- Quantum Scalar tape library
- ATTO ThunderLink Thunderbolt to FibreChannel converter

This year, Archiware is proud to be working with 35 hardware and software partners at the show. New partnerships comprise cutting-edge NAS manufacturer QNAP, Cloud service provider Wasabi and storage partner LumaForge. A complete list of Archiware's partners and their respective show locations is available in the NAB Partner Map: **http://bit.ly/2tMIyHs**

About Archiware:
Headquartered in Munich, Germany, Archiware GmbH is a privately held company with over 20 years of experience in data management software for backup, synchronization and archiving. Archiware's software is primarily aimed at the SMB and Media & Entertainment industry.
