Media Backup and Archive on LTO Tape

Archiware P5 Backup, P5 Archive and Qualstar Tape Libraries

Media production under time pressure puts data in the workflow at high risk. User errors are the most common threat. On top of that, storage fills up faster than ever due to large production formats. Backup and Archive to LTO tape solve both problems at a very attractive price point and with flexible scaling.

Archiving is the best method to create space on high performance storage. Migrating data that is no longer needed for daily production reduces the risk of data loss, keeps everything in one place and avoids the hassle of constantly having to increase storage. Archiving also reduces the cost of storage, since **tape offers the lowest cost per TB** of any medium. Browse and search anything anytime.

Qualstar is a designer and manufacturer of tape based storage solutions. Qualstar offers a full spectrum of tape libraries ranging from **8 slots to 640 slots** servicing entry level, mid-range and enterprise class customers.

Combined with **P5** Archive, the result is an easy, reliable, robust and scalable solution. Qualstar tape library products come standard with a state of the art GUI and web based remote access application that allows you to configure, partition and manage the tape library from anywhere in the world. For day-to-day protection of production data, use part of the Qualstar library for regular, full or incremental backup with Archiware P5 Backup.

P5 Archive Advantages:

- \checkmark Browse and Search Media with Previews/Proxies
- ✓ User Restore
- ✓ One Solution for all Platforms (Mac, Win, Linux)
- \checkmark Customizable Metadata fields
- ✓ Long-term storage, LTO certified for 30 years
- ✓ Combine with P5 Backup for daily server backup
- ✓ Tape cloning for maximum security & off-site storage
- ✓ Parallelization for speed and scalability

Since the position of the files is stored, the restore is as quick as possible. Parallelization of multiple drives provides maximum throughput. Maximum data security is achieved by tape cloning and storing tapes offsite.

Qualstar libraries and **Archiware P5 Backup** offer automatic Backup improving security while making life easier.

The solution grows easily since library and licenses are expandable.

Archiware P5 Archive and P5 Backup are compatible with all Qualstar libraries from the Q8 to the Q80 series.
